## JUDGE

Says His Wife Was A Great "Spender"

Millerburg, O., Oct. 6.—Judge Stillwell in his answer to his wife's petition for alimony, makes charges of abuse as voluminous as hers. He alleges she wrote an anonymous letter to a man, warning him to look out for the judge as he was visiting his home, and to be on his guard as Stillwell carried a revolver and would shoot if detected.

He denies charges of cruelty and non-support, but says his wife piled up debts to such an extent that he was forced to notify business men to sell her goods only when she paid for them.

## GOV. HARMON

To Speak Here Monday Evening, Oct. 24

Hon. M. A. Daugherty Will Also Deliver An Address

The Democratic state executive committee has assigned Gov. Harmon to deliver an address in Mt. Vernon the evening of Monday, October 24. Hon. M. A. Daugherty of Lancaster has also been assigned to speak at the same meeting. The meeting will take place at the skating rink on East High street.

The local committee was fortunate in securing Gov. Harmon. His time was all filled except for the date mentioned above. It was also fortunate in securing Mr. Daugherty. He is one of the best speakers in the state, is clear-cut, logical and forceful.

The full arrangements for the meeting will be announced later.

## MUSHROOM

Crop Most Plentiful In Knox Co. This Fall

Knox county can boast of at least one bumper crop and that is the fall mushroom crop. The conditions this fall have been ideal for mushrooms, the late rains, followed by warm weather has made the edible fungus spring up thick in all old meadows. Even in the city limits many mushrooms have been gathered. People who have gone out into meadows have gathered two or three bushels in one morning. These mushrooms are thought to be the same as the French ones which are put up in bottles and are important article of commerce. Lovers of mushrooms are reveling in them to the fullest extent.

## NO MEETING HELD

Owing to the fact that there was not a quorum present Wednesday evening there was no meeting of the Citizens' Association. The next meeting will be held the first Wednesday evening in November.

## CONTRACT

Awarded Bridge Company One Of The Largest

Ever Let To A Company In The State

Some Facts About The Bridge To Be Built

The Zanesville Times Recorder has the following concerning the big contract awarded the Mt. Vernon Bridge Co. in Zanesville, which was noted in Wednesday's Banner:

The contract for the construction of the new Fifth street bridge was awarded Tuesday afternoon to the Mt. Vernon Bridge Company. After thoroughly canvassing the bids of the R. H. Evans company and the bridge construction company. It was decided to make the award to the lowest bidder inasmuch as the concern is reliable and substantial and well qualified to finish the work satisfactorily to the taxpayers, public and the county commissioners. The contract price was \$209,985.

According to the terms of the agreement the new bridge is to be completed and open to traffic by September 1, 1911. Work will begin, both on the tearing down of the present structure and the erection of the new, early in the spring. The exact date has not been determined. It was deemed best by the county commissioners to have the old bridge remain intact over the winter months, in order to accommodate the residents of the old Eighth and Tenth wards.

The new bridge will be constructed along the most modern and approved plans, and will prove a lasting monument to future generations of Zanesvillians. It will be practically indestructible, capable of withstanding the attacks of the elements for years to come. The specifications call for a steel structure encased in concrete, with the exception of the middle span. On account of the length of this span, 265 feet, concrete encasement would not be practicable, consequently steel will be used at that point entirely. This break in the kind of material will not in the least mar the beauty or general effect of the bridge.

The flooring will be laid with brick, while creosote block will be utilized in the channel span. This material will greatly reduce the cost of keeping the flooring in condition, and the expense of painting will be very light. The new bridge will be at least 50 per cent heavier in construction than the Y bridge, owing to the advancement made in the concrete trade during the past ten years. The roadway will be two feet wider than the old bridge.

The commissioners included in the contract of the Mt. Vernon people, the stipulation that the old bridge should be wrecked piecemeal. Each board, beam and rafter, together with all the iron and steel parts, will have to be properly piled on the banks of the river and marked. Nearly all of the lumber and iron that is in good condition can be re-used or sold. In addition the plans call for the removal of the channel span of the present structure as one piece. It is figured that the span is in sufficiently good condition to be made over into a bridge for some section of the county, where the traffic is light and not burdened with the passing of heavily laden street cars. If not used for this purpose the span could be more readily sold as one piece than in sections. The commissioners have been doing some close figuring during the past few days and it is estimated that between \$15,000 and \$20,000 can be secured for the old bridge, either in its entirety or in lots. This saving to the county will be considerable and the money could be devoted to divers uses.

Each and every piece of material used in the erection of the new bridge will be thoroughly inspected in the shops by experts in this line. The construction agents will be held literally to their contract in every respect and detail. The commissioners will appoint an engineer of construction in a few weeks.

## TO BUILD PIKE

The contract for the building the 2.5 miles of pike, from the corporation line west, was let Thursday to the Ohio Paving Company of Toledo for \$18,699.85. This is the same company that has put in the other two pikes of this township. Work will begin at once and the road will be completed as far as possible this fall.—Centerburg Gazette.

## OLD SOLDIERS

Are All Friends Of Congressman William G. Sharp

While congressmen's records are being examined these days, the old soldiers of the 14th Ohio District should not forget that their representative in Congress, Hon. Wm. G. Sharp, although a first-term, succeeded in having passed through congress one of the largest number of private pension bills secured by any member of that body. Without bluster and without any blows as to what he would do for this most worthy class of his constituents, Mr. Sharp has furnished every reason to the old soldiers for their having an abounding confidence in his interest in them as well as his ability to make good in his efforts in their behalf. Hundreds of their number in this district can testify to the promptness with which all their communications have been answered and the effective manner in which he has worked for their interest.

Nor is this the only field in which Congressman Sharp has been successful in representing the people in his home district, for as the Hon. Champ Clark said of him in a recent speech, he knew of no new member in the entire congress who had come to the front as rapidly or exercised more influence than Congressman Sharp. This work was amply demonstrated in the appropriations which he secured in the way of public improvements for different towns in the district, in which respect he displayed ability, and a degree of usefulness not surpassed by any of his predecessors from this district.

The Ohio tax commission on Wednesday completed the work of fixing the valuations on the telephone companies of Ohio. The valuation of the Mt. Vernon Telephone company was fixed at \$98,670. In 1909, the valuation of the local company was fixed at \$56,050, an increase of \$42,620.

Praise and intoxicating liquor have much the same effect on some people.

## DECISIONS

To Be Handed Down By The Circuit Court

In The Cases Now Heard Friday Afternoon

An Injunction Suit Filed In Common Pleas

To Prevent Construction Of Out Buildings

Other Notes Of Interest From Temple Of Justice

The circuit court now in session in this city heard cases up until noon Thursday and will devote Thursday afternoon and a portion of Friday in preparing decisions in cases which they have heard. Decisions will be handed down sometime Friday afternoon.

**Injunction Suit—**  
Carroll Bronson has commenced an injunction suit in the court of common pleas against Horace Baldwin and Ella Baldwin. The plaintiff states that he is the owner of a certain lot in South Vernon and that the defendants are threatening by force to construct a poultry house and privy on the ground of the plaintiff. The plaintiff asks that the defendants be enjoined from trespassing on his property. A temporary restraining order has been allowed by Judge Berry of probate court. W. F. Rimer represents the plaintiff in this action.

**First and Final—**  
A first and final distributive account has been filed in probate by Mary L. B. Earlywine and L. George Hollobaugh, executors of Samuel Hollobaugh, showing the following: Received \$403.61, paid out the same amount.

**Second Partial—**  
W. B. Harris, trustee of Edward West, under the will of Sarah West, has filed a second partial account in probate showing the following: Received \$153.59, paid out \$19.70, balance \$133.89.

**First and Final—**  
Mary S. Kelley, guardian of Cath-

erine Kelley et al., has filed a first and final account in probate.

**Account Filed—**  
Ella Baldwin, guardian of Horace Baldwin, has filed a first and final account in probate. It shows \$139 received and the same amount paid out.

**Deeds Filed—**  
James B. Foote to Hermie B. Reynolds, parcel in Fredericktown, \$3,200.  
Amanda E. Wilkins to Anna M. McArdle, parcel in Fredericktown, \$2,250.  
Edward B. Alsop to Edward J. Bennett, lot in city, \$400.

### AFTER NEW FACTORY

Mr. D. C. Warner of Columbus has spent some time here the past week, with a view to securing a location for and financing a factory proposition. He has secured an option on the 52 acres of Mrs. Armstrong, lying north of the C. A. & C. and east of the T. & O. C. Ry. A committee of representative citizens has been named to treat with Mr. Warner. At a meeting of citizens to be held some night next week a permanent board of trade will be organized.—Centerburg Gazette.

## RIVER

Somewhat Swollen Result Of Heavy Rain

The fact that the ground was in a state of extreme dryness in spite of the rains, which fell some time ago, was clearly demonstrated by the Kooking river, which was somewhat swollen on Thursday morning. Under ordinary circumstances, the steady rainfall during the past two days would have caused the stream to overflow the banks but as it is, the ground has taken up so much of the water that the river was only bank full on Thursday morning and not high enough to do any damage to property at any point in this vicinity. On the other hand, the high water will render a great service by washing away the great amount of refuse and filth, which must necessarily accumulate during the dry period when the water is low and sluggish.
